OATH UPON EXPOSURE TO
CLASSIFIED INFORMATION

1. I fully understand that I have been exposed to classified information and that its disclosure or negligent handling could adversely affect the security and interests of the United States. I have been advised that the unauthorized disclosure of classified information is prohibited by the Espionage Laws (Title 18, USCA, Sections 793, 794, and 798), and that a violation of these laws could subject me to prosecution by the United States Government.

2. I hereby affirm that I will never publish, reveal, or divulge by any means such classified information. I further agree that I do not now, nor will I ever possess any right, interest, title of claim whatsoever to such information.

3. I further acknowledge that I have a continuing responsibility to the United States Government for the protection of such information to which I may have been exposed. I understand that I will not be relieved of this responsibility except when specifically advised in writing by an authorized official of the United States Government.

4. I accept this obligation freely, without any mental reservation or purpose of evasion.

MEMORANDUM FOR: All Cable Originators/Recipients

FROM : Headquarters Signal Center

SUBJECT : Message Format Changes

circ R

1. The testing of the Automated Communications Terminal system (ACT-I), in the Headquarters Signal Center, is imminent. In preparation for this, all Agency field stations have been advised (see DIRECTOR 271268) to implement certain message format changes. Those changes are now appearing in incoming traffic, including the addition of a Message Handling Indicator (MHI), and the addition of a period (.) at the end of the addressee line. The period is a tool to permit the ACT-I system to recognize the end of the list of addressees. The MHI is a security feature to permit the ACT-I system to identify the category or type of traffic being processed. A list of the currently-approved MHIs, and the categories of traffic identified by them, is contained in this notice.

25X1 2. a supplement to the Cable Handbook will be distributed in Headquarters soon. That document describes the changes in outgoing message formats to be implemented by cable originators and typists.

25X1 3. Within the next month, the several new outgoing message forms to be used by Headquarters cable originating offices will become available in stock, for those offices equipped with appropriate Selectric typewriters and font balls. For offices not so equipped, the existing forms continue to be authorized for use for an indefinite period. Description of the new forms, and the use thereof, is included in

4. The format changes described in the supplement to the Cable Handbook should be implemented as soon as that document and the new outgoing message forms are available. In the interim the Headquarters Signal Center, when required, will make the necessary modifications to outgoing messages to render them acceptable to the ACT-I system for test or operational use.

S E C R E T

GROUP 1

5. Those offices continuing to use the old outgoing message forms, due to lack of the necessary Selectric typewriters and font balls, should nonetheless implement the changes indicated in [] to the extent possible, when that document becomes available. This is especially desirable with respect to the use of the Message Handling Indicator.

25X1

6. Any further information required on the current implementation of format changes by the field stations may be obtained from Messrs. []

25X1
